Perinatal Mental Health in the Margins **CONFERENCE**

Don't miss out on sponsoring this inaugural Waterloo Region event! Mark your calendar and join us on May 01, 2024, to be part of the conversation surrounding intersections of perinatal mental health within marginalized communities.

There are many benefits to bringing this conference to Waterloo Region:

- Hear insights from local experts and advocates in the field;
- Engage with speakers and panel discussions;
- Learn strategies to improve access to perinatal mental health support, reduce stigma, and promote overall well-being for families.

This conference offers a platform for learning, networking, and collaboration. Topics will include those living at the intersection of perinatal mental health and Precarious Housing, BIPGM Identity, Newcomer Communities, and 2SLGBTQIA+ Community. Together, we can work towards creating a more inclusive and supportive environment for all.

About Together

Together: For Perinatal Mental Health Inc. is a non-profit organization in Waterloo Region focused on providing inclusive and culturally informed perinatal mental health supports to families and building collective community care in Waterloo Region.

Wednesday May 1, 2024
10AM-4PM

Kitchener Public Library Theatre
85 Queen St North

Paid Ticketed Event

Who you are helping

Together: For Perinatal Mental Health supports the 1 in 5 birthing people facing perinatal mental health struggles, emphasizing community care models to boost postpartum resilience.

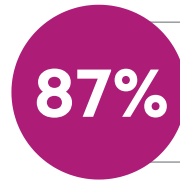

Community care models, like the one advocated by Together, are instrumental in fostering postpartum resilience. These models prioritize a network of support that extends beyond traditional medical interventions. The power of communal strength in navigating the complexities of perinatal mental health cannot be overstated. By sponsoring Together, you are investing in a community-driven approach that recognizes the importance of empathy, shared experiences, and a collective commitment to well-being.

Complication during pregnancy and postpartum

Average wait time for services

Canadian healthcare providers believe people from diverse backgrounds encounter barriers to accessing perinatal services

Moreover, it is crucial to acknowledge that perinatal mental health disparities disproportionately affect marginalized communities. Unfortunately, a lack of comprehensive statistics compounds the challenge of addressing these disparities effectively. Your contribution sends a powerful message: your organization prioritizes community well-being.

In supporting Together: For Perinatal Mental Health, you are not just supporting an event; you are supporting a movement. A movement that strives to create a world where every birthing person, regardless of their background, has the opportunity to experience the joys of parenthood without the burden of untreated mental health struggles and stigma.

Thank you for considering this opportunity to make a lasting impact. Together, we can unlock a future where every birthing person has the support they need for a healthy and resilient start to parenthood.
